155th Meeting – Roslyn

Sharon Arms Convalescent Hospital

Work Launched on New Hospital

Work began yesterday on the **Sharon Arms**, a \$600,000 four-story convalescent hospital to be built at Seventh and Stevens.

John Canwell, vice president of Parkview Investment, Inc., newly formed organization planning the project, today said occupancy of the building, much of which will be prefabricated in the Spokane Valley, will begin next June 1.

"The 120-bed hospital will be of contemporary modern construction with window walls," he said. "It will also provide an innovation in ambulance service in that the ambulances may drive directly into the hospital in much the same manner as in the modern motor motel."

Other officers of the group included

Evacuation Simulated

Peggy Schoolcraft, Central Valley high school cheer leader, assumed the role of a patient in the mock evacuation of the **Sharon Arms** convalescent hospital conducted by civil defense personnel today. Stretcher bearers are Marilyn Ogilvie and Shirley Walker, both student nurses. The drill involved transporting several "patients" from the hospital by stretcher to waiting vans that would carry them to field hospitals in an actual emergency. The 200-bed emergency hospital at the civil defense warehouse in Velox was set up as a part of the Civil Defense Day exercise.

Mock Evacuation Has Realistic Look

Touches of realism were included in Spokane's first mock evacuation of a hospital facility, staged this morning as a part of the Civil Defense Day observance here.

High school students, student nurses and ambulance and van drivers participated in the simulated movement of stretcher and ambulatory patients from the Sharon Arms convalescent hospital, Stevens and Seventh, to the civil defense field hospital set up in a warehouse at the Spokane Industrial park, Velox.

Students Are Patients

About 50 Marycliff high school girls and students from other schools in the area assumed the roles of patients and were borne on stretchers into moving vans from the Sharon Arms.

Some of the stretcher bearers carried bottles of blood and glucose balanced against their necks, theatrically administering to the "patients" as they were being evacuated.

Because of the cold weather, the young patients were not carried all the way in Velox in the padded trucks, but were transported in private cars that escorted the vans to the evacuation hospital. Very severe medical equipment stood by at the 200-bed emergency hospital to care for the evacuees.

Neils Shaws, James Northey, CD transportation unit chief here, said the exercise showed need for additional equipment being assigned to hospital.

Patronage Rise Noted by Bus Line

Spokane City Lines' bus patronage increased 14 per cent last month over November, 1954, Manager H. M. Islander said today.

This is only the second time the company has reported more riders since patronage started falling off in 1947. The first was last June, when a 1 per cent increase was reported.

"It appears that the decline in passengers is leveling off," said Islander.

However, he said, part of the reason may have resulted from the fact that Spokaneans seem to be doing their Christmas shopping earlier this year.

SCL buses carried 120,000 passengers last month, compared to 117,000 a year ago, he said.

Sharon Arms Will Have New Director

Appointment of Donald L. McFarland as administrator of the Sharon Arms Nursing Home and Convalescent Center at Seventh

DONALD L. McFARLAND
Past With Nursing Home

and Stevens was announced Thursday.

McFarland, a native of Spokane and a graduate of North Central High School, was graduated from Washington State University with a bachelor of arts degree. For 20 years he has been associated with several companies in executive positions with much of his experience in the medical and hospital fields.

Sharon Arms, a four-story, 115-bed nursing home, was built in 1950 by Parkview Investment Co., a company whose formation was sponsored by local doctors.

Dr. William H. & Frances C. Axtell House

MRS. AXTELL IS EASILY THE WINNER

With returns to hand from all city precincts with the exception of the fourth precinct of the third ward, it is now certain that the race for state representative from the fifty-fourth district has been won by Mrs. W. H. Axtell and W. J. Hughes. It is not believed that the returns from the missing precinct can be compiled until this evening but when communication was made with the election officers at a late hour this

afternoon it was announced that the lead of Mrs. Axtell over J. P. deMattos had been increased by some sixty votes. This has the effect of rendering her position impregnable. The Hughes vote was also increasing proportionately.

Returns to hand show the candidates to stand as follows:

Axtell2,122
DeMattos2,071

MRS. AXTELL AND OTTO CASE TALK

Policies of Republican Party
Are Attacked by Demo-
cratic Candidates.

Policies of the republican party and the public records of United States Senator Wesley Jones, Seattle, and United States Congressman Lin Hadley, Bellingham, incumbent republicans up for re-election, were attacked in addresses by Mrs. Frances C. Axtell, Bellingham, democratic candidate for the congressional seat held by Mr. Hadley, and Otto Case, Seattle progressive, at Liberty hall last night. Approximately 200 persons attended.

Congressman Lin Hadley denied charges that he is reactionary and a corporation attorney in a speech at the hall Friday evening. Mrs. Axtell again hurled the charges, saying that in 1920 Mr. Hadley told her he was reactionary and that she judged he was a corporation attorney by the profession he followed before becoming a congressman.

Also she attacked Mr. Hadley for telling the Friday audience that he had voted for twenty-five of twenty-seven measures that affected the workers, because he did not cite the specific bills he voted for. The world court and war debt settlement issues were mentioned by both speakers.

In speaking of the recent probe of A. Scott Bullitt's campaign expenditures in Seattle, Mr. Case declared it was a wonderful thing for Bullitt's candidacy. Mr. Case predicted that Mr. Bullitt would carry King county by not less than from 6,000 to 10,000 votes over Senator Jones.

Both speakers closed their talks with pleas for the people to vote for progressive candidates for public offices. Mr. Case said that usually he voted the republican ticket but that he could not do so while the government of this country is being conducted as it is.

CANDIDATES SQUARING OFF FOR FINISHING TOUCHES

Eleventh Hour Interest Grows—
Principal Interest Is In Senatorial Contest.

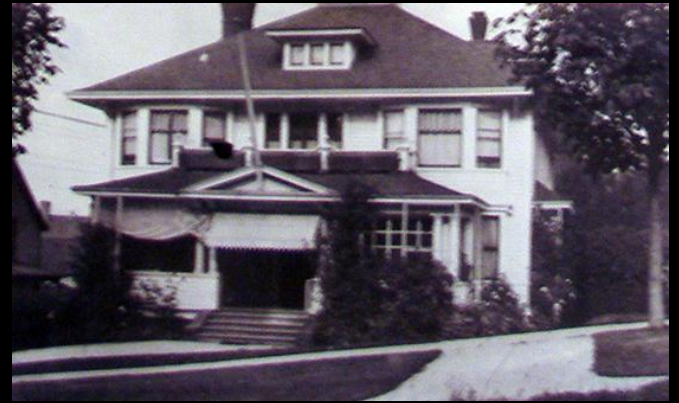

Candidates for office were squaring away today for the "last licks" in the pre-primary campaign, which will close to an end next Tuesday. Interest in the campaign this year has not been up to normal, but during the past few days some heat has been contributed to the finishing touches as the office-seekers paddled their wares among the electorate.

Primarily, interest here in the campaign has centered in the United States senatorial contest. This has been intensified considerably during the week owing to the growing split which has occurred in the anti-Poindexter forces. Mrs. Frances C. Axtell, the only woman candidate for the nomination, took part in the Labor day celebration at ornamental park Monday, and Colonel George B. Lamping gave a brief street corner address here Thursday night. Jones

MRS. AXTELL NAMED DEMOCRATIC NOMINEE

SEATTLE, Sept. 14.—Mrs. Frances Axtell, of Bellingham, was nominated for congress from the Second Washington district by the democrats in Tuesday's primary election. She is the candidate for congress also on the progressive ticket.
